

CITY of Geelong BOWLS Club Inc.

Facility Director's Report 2022

The routine maintenance tasks for our facility are now in a more settled routine with the work to satisfy council requirements completed last year. Covid has continued to have an impact because of contract labour being unavailable at times but we are now up to date with our routine maintenance work. We are seeing some wear and tear on the building and surrounds so remedial work will be needed over the next year or so. Some of it will be done by contract labour but members be ready to help out with some working bees to keep our facility looking good and inviting.

Thank you to Hugh MacPherson for another year as our provider. He continues to quietly and efficiently get the job done.

The greens committee of Graham Radford, Peter Teplyj and Andy Hoskin have once again done a great job in looking after our greens. Graham and Peter have retired from their roles now and a big thank you for the service they have given to the club. Andy Hoskin is continuing and needs some help to keep our greens in good condition so please, if you are able, step up and be part of the crew.

Apart from the work done by our volunteers a facility like ours has a number of statutory and preventative maintenance tasks that need to be carried out by contractors. There are also routine tasks such as security cleaning and waste management that need to be managed.

Routine maintenance work this year has been done on the greens, air handling systems, refrigeration, emergency and exit lighting, firefighting systems, carpet cleaning, facility safety checks and height safety system inspections.

Thank you to everyone who has pitched in to help keep our club in good condition.
